"It's the only solution that makes sense"

Executive Summary:

Marjon Solutions, which is registered in South Africa and has its main objective to establish and develop in South Africa as well as export markets.

Marjon Solutions is fast becoming one of the market players with innovative customer solutions. Industry respected for their problem solving and optimum performance capabilities. The research and development division main objective is to source the highest quality and most cost effective solutions for all our client needs.

The company is privately owned by well-established businessmen, which also have other business interests. Having experience in a variety of industries

Marjon Solutions is well capable of sourcing only the highest quality solutions for the industrial, commercial and domestic industry. Supported by well known, reliable suppliers and manufacturers we are able to solve our client requirements fast, efficient and cost effective.

Vision:

- To be the leading provider of innovative and diversified customer-centric solutions.

Mission (Philosophy and values):

- Conduct our business from an ethical base.
- Encourage entrepreneurial thinking in every employee.
- Create a working environment that is stable and secure.
- Build a culture that supports innovative thinking.
- Protect the future of the organisation by being progressive and keeping with the latest trends.
- Creating long term working relationships with clients by remaining committed to providing a high level of customer service.

Objectives (What we stand for):

Integrity is at heart of everything we do. We align our actions with our words and deliver what we promise. We are honest, ethical and upfront, because trust is the foundation upon which we build our relationships with our customers, our communities, our stakeholders and each other. It is critical that we **Respect** everyone at every level of our business. We champion diversity, embrace individuality and display mutual respect when we interact with others. We take responsibility for our actions as individuals, as team members and as an organisation. We keep our commitments to each other and our customers. We are personally **Accountable** to other team members to deliver on time.

General Company Description

We deliver superior customer experience, through our products, services and our actions. We strive for Performance Excellence in all segments of our business. We are entrepreneurial, opportunistic and innovative. We are committed to working in diverse teams to achieve organisational goals.
